2003-Present Corporate Shapers Houston, TX

President & CEO

- Founder and developer.
- Description: Corporate Shapers partners with businesses to solve the individual employee and corporate health related problems mentioned above by providing affordable on-site chiropractic care, massage therapy and health education services that improve the overall health of your employee workforce, which increases your benefits, increases productivity and decreases absenteeism.
- Development: Unlike other programs that may promise positive changes from a one-time workshop, we continually promote positive changes in your employees by: 1) improving your employees' health status through consistent chiropractic care, massage therapy and lunchtime health education seminars that simplify key health concepts and provide practical 'how-to' health applications that encourage proactive lifestyle modification and 2) affordable and convenient on-site services that fit any schedule.
- Concepts and resources: Developed company concept and business systems.

2000-Present Digital Review Systems, Inc. Houston, TX

President & CEO

- Founder and developer of Digital Review Systems, Inc.
- Description: A fully structured state-of-the-art and up-to-date Part IV Board Review course combining both programmed PowerPoint presentations with hands-on instructor taught training for the sole purpose of training students to successfully pass the Chiropractic National Boards Part IV examination. Topics include: Patient history taking, orthopedic examination, neurologic examination, physical examination, chiropractic adjusting and radiology.
