Improvement Report

Regarding your improvement:

1. What was it like before you came in to see us?

We were very concerned, really scared, to learn of Connor's sudden diagnosis of Hodgkins disease Lymph. Cancer. We were desperate for answers. Through our great friends, who also happen to be relatives of ours, we found Natural Health Center.

2. How is it now?

Connor has improved. His over all health seems better to us now than perhaps even before having Hodgkins. He eats better and healthier now, than in the past. He also takes his supplements and has the desire to get outdoors and exercise.

This information is for our records and to help us educate others about what we do.
