## Improvement Report

### Regarding your improvement:

1. What was it like before you came in to see us?

I had been on Aroney and refused to take it anymore because of the flu like symptoms I was having. My Neuro wanted to put me on Copaxon, a once a day injection, for MS. I didn't want to do this. My husband had to help me to bed several nights a week. He could tell when it was coming on because my ~~para~~ voice would start to slur. I would lose my automatic reflexes.

2. How is it now?

My head ~~is~~ is clear & I can make decisions. My husband has not had to help me to bed since I began the program. I can't believe this!! My complexion & skin is much better. It is softer & less dry.

When I saw my Neurologist of 30 yrs. I told him NO Copaxon. It really felt good.

This information is for our records and to help us educate others about what we do.
